

# Society of Oil & Gas Entrepreneurs May Meetup

May 10 · 6:00 PM

[Houston Technology Center](#)

Come join the Society of Oil & Gas Entrepreneurs on Tuesday, May 10th, at the Houston Technology Center. Networking will start at 6:00 pm and our speaker will be at 6:30. Food and drinks will be provided. Bring some business cards and prepare to network!

Our speaker, Jeff Baker, of NB Business Solutions will be sharing his insights on what has made him successful as a professional as well as an entrepreneur. He'll be diving into "defining your core interest", networking and building a set of transferable skills that will allow you to change jobs, companies or industries.

*\*\* PARKING: Limited street parking available in front of HTC. There is a paid parking garage above The Republic Smokehouse (former BlackFinn Restaurant).\*\*\**

=====

**About Jeff Baker:** Jeff co-founded NB Business Solutions, an HR, IT, and Data Management consulting firm, in July of 2015. As Managing Partner, Jeff is responsible for building the IT and Data Management capabilities for the firm and maintains a primary focus on developing oil and gas clientele. Jeff is currently providing Data Management and HRIS consulting services to a Houston-based oilfield services company as well as filling an interim CIO role for a Dallas-based midstream organization. Prior to founding NB Business Solutions, Jeff served as Manager, IT Applications for Rosetta Resources until the organization was acquired by Noble Energy in 2015. During his time at Rosetta, Jeff was responsible for managing Rosetta's E&P and business application suites as well as providing strategic direction around data management and business intelligence. He has over 15 years of experience with expertise in data management, program and project management, continuous process improvement, application development, and various IT leadership roles. Jeff previously served as Director, Data Services for The Frontline Group, Director of Information Technology at Gurwitch Products, LLC, and various positions within El Paso Corporation and Equilon Enterprises.
